**Summary** — Recent Mathematics graduate and current Ph.D. Student in Economics at Collegio Carlo Alberto and University of Turin. Research interests: Macroeconometrics, Time series Analysis.

## Education

### Collegio Carlo Alberto, University of Turin

Aug 2024 –

*Ph.D. in Economics*

- Research interests: macroeconometrics, time series analysis.

### University of Turin

Sep 2022 – Jul 2024

*Master of Science in Mathematics*

- Main topics: probability theory, stochastic processes, econometrics, programming, time series analysis.
- Thesis title: *Upside and Downside Uncertainty In The GDP Growth Rate Forecast Distribution.*
- Supervisor: Prof. Luca Gambetti
- Graduation mark: 110/110 cum laude and special mention.

### University of Genoa

Sep 2018 – Mar 2022

*Bachelor of Science in Mathematics*

- Main topics: mathematical analysis, mathematical modeling, numerical methods, mathematical optimization.
- Thesis title: *Multiple Hypothesis Testing*
- Supervisor: Prof. Eva Riccomagno

## Experience

### Mathematics and Physics Teacher

Nov 2021 – Jul 2022

*Full time high school teacher of Mathematics and Physics (Liceo G.D. Cassini Sanremo)*

## Skills

**Languages** Italian (native), English (C1)

**Programming** Python, R, MATLAB, LaTeX, Excel
